Learning Partners Academy Trust

Dear Parents and Carers

Further to the merger of Athena Schools Trust and Guildford Education Partnership, we have now renamed ourselves from Athena-GEP Ltd to Learning Partners Academy Trust.

As our new name indicates, we wholeheartedly embrace the educational qualities of both learning and partnership. Our mission is to create a love of learning in the lives of pupils, and to encourage partnership and collaboration because we achieve more when we work together. We bring together our schools, so they can thrive and enable their pupils to become the best they can be.

Can we also take this opportunity to celebrate the achievements of our schools in the trust the last term, and wish you a belated happy new year. As a trust we were proud to work alongside schools and witness the pleasing expansion of training for our teachers. We exist as a trust to provide the best for your child. It is our aspiration to continue to work between schools and develop a collaborative culture which reduces workload for staff whilst providing the very best for children in the classroom. 2022 will see us move forward in building shared experiences for children in all our schools.

Thank you for your support of our schools, it is through shared partnerships between parents, schools and the trust that we serve children best.

Yours sincerely
