

British Wild Animal Club – A Fantastic Success!

Our **British Wild Animal Club** has been a huge success this Winter. The children have loved learning fun facts about British wildlife and getting creative with a variety of animal-themed crafts. It has been wonderful working with such an enthusiastic and engaged group.

Although we didn't get a chance to finish our lovely pottery badgers that we've been working hard on, we're going to make sure we find some time next half term to glaze and complete them. In the meantime, here's a sneak peek of how they're looking so far!

As we move into the warmer months, the club has now come to an end until October. In its place, the **Green Tree Committee Club** will be starting up again, focusing on making our school grounds look beautiful for the summer and working hard on some exciting eco projects. If you'd like to get involved—we'd love your help. Make sure you apply!
